

# REMA

## Vertical Return Systems

**Quality Built of 11 Gauge Steel, Only...**

**Takes just 18" Compact Floor Space!**

Engineered and crafted with Rema's leadership technology — completely assembled, ready to operate. Featuring:

- Space saving, vertical design — easy to install, easy to service.
- Heavy duty, 11 gauge steel throughout with triple weld seams; Burks pumps, quality valves, gauges and fixtures.
- Unique design generates greater pump head pressure — reduces vapor lock worries.
- Float Assembly removes without draining tank — for easier service.
- Retrofits with most boiler equipment.

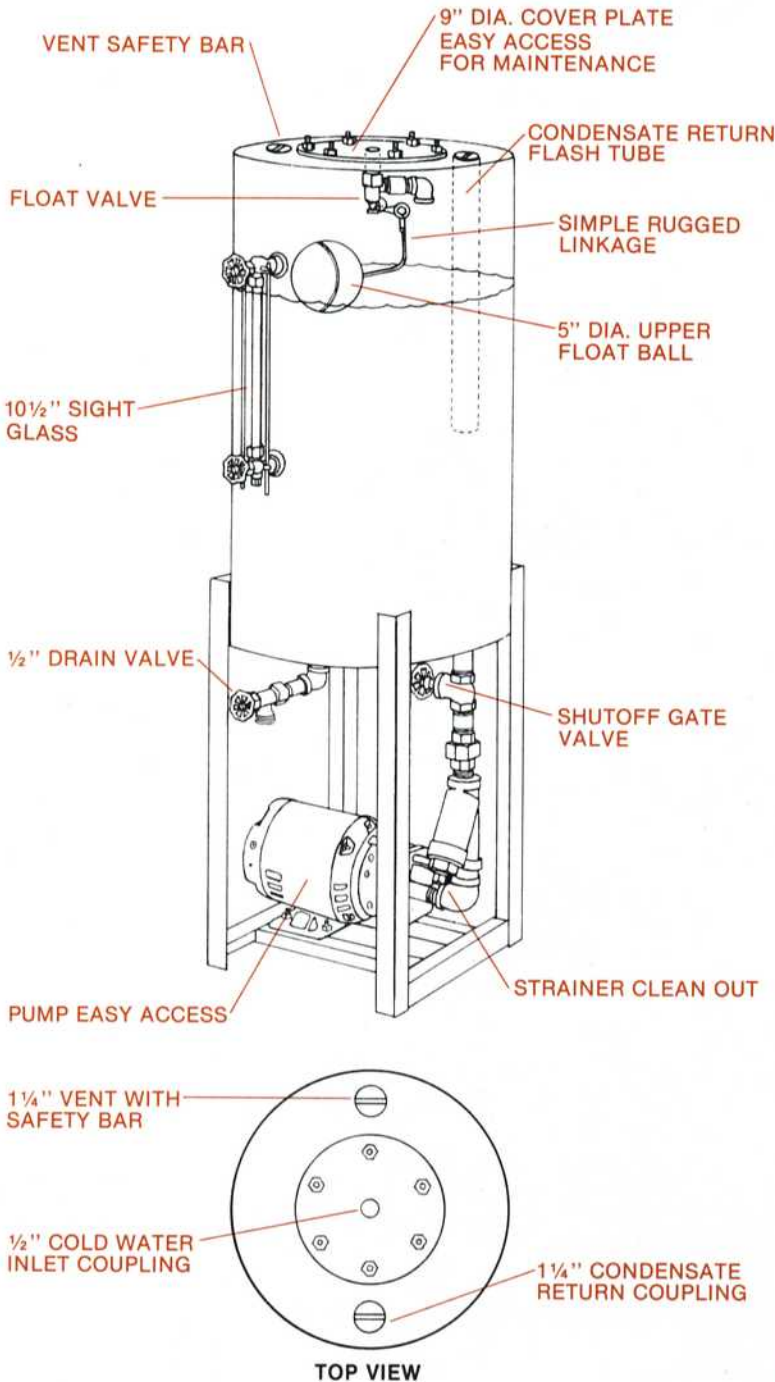

# Space Saving, Rugged and Economical.

**Designers and Builders of Boiler Feed Systems for Industry.**

# REMA Space Saver Vertical Return Systems

Needs Just 18" of Floor Space — Made of 11 Gauge Steel, Only

## REMA VERTICAL RETURN SYSTEMS Specifications & Availability

MODEL	BOILER H.P.	TANK SIZE & CAPACITY	PUMP	H.P.
BJHV-2	4-6	18x24 26 gallons	3CT5M 33CT5M	1/3
BJHV-3	7-10	18x24 26 gallons	5CT6M 35CT6M	1/2
BJHV-4	10-15	18x30 33 gallons	5CT6M 35CT6M	1/2
BJHV-44	15-25	18x30 33 gallons	7CT7M 37CT7M	3/4
BJHV-5	15-25	18x36 40 gallons	7CT7M 37CT7M	3/4
BJHV-55	25-30	18x36 40 gallons	10CS5M 310CS5M	1
BJHV-6	30-35	18x42 46 gallons	15CS5M 315CS5M	1½
BJHV-7	35-45	18x42 46 gallons	*330CS7M	3

\*Three Phase Only

Another quality first from Rema... pioneer in Boiler Feed, Vertical/Dual and Overhead Vacuum Systems. Features top quality materials and workmanship — your assurance for efficient performance and durability. All of this is backed by personal, friendly service that means something. Delivery is prompt — a matter of days — and we always guarantee every product we design, build or distribute.
